

Food and Beverage Operator required for 4 1/2 star hotel

This 6 year old Hotel is strong in the corporate sector and seeks an experienced operator to take control of the F&B operations:

The main restaurant will comfortably seat more than 250 people and can be divided into two spaces. There is outside veranda in the Licensed area seating a further 50 people.

There is a very spacious and fully equipped commercial kitchen

There are further two function rooms in the hotel that are available for use by the Operator.

This is an excellent opportunity for an Operator to use their own initiative to vary the décor and menu to enhance the overall environment.

The Hotel is located in the Eastern suburbs (with a financially secure demographic to draw on), is adjacent to main roads and has excellent exposure.

Total area (excluding function rooms) is approx 900 M2.

On site car parking for 126 vehicles
